Disclaimer

IMPORTANT DISCLAIMER

This brochure is published by HK Daehon Machinery Ltd. for general information only. It is not a binding offer, contract, or warranty.

Specifications are taken from hkdaehon.com as of 04 June 2026 unless noted otherwise. Published data may change without notice.

Industry cross-check notes describe comparable machinery classes in public trade literature (e.g. Hauni/Koerber HLP and Protos lines, GD GDX2-class packers, KDF/ZL filter platforms, and regional OEM rebuilders). Daehon is not affiliated with, endorsed by, or acting for those brands unless expressly stated in writing.

Actual output depends on cigarette format, materials, utilities, ambient conditions, maintenance, and operator training. Only written quotations, signed agreements, and factory acceptance tests are binding.

Verify all speeds, dimensions, and utilities on your project before purchase.
